

Aggregator Plan (Rev 110102a)

The Aggregator Pricing Plan is intended for large volume users that connect to BandTel via their own VoIP switch, maintain their own billing system, and often times serve and resell to a set of customers downstream, offering variety of telecom services. Clients that fit this profile tend to be call centers, carriers, and or large enterprise users.

Clients that have sufficient volumes and can qualify for this plan receive very aggressive pricing. Further, the plan is a one stop shop for all telecom services, including bulk DID and 800 numbers, LNP services, and 911 services.

○ **Minimum Monthly Commitment - \$200**
